

談話会のお知らせ

講演者: Reviel Netz (Stanford University)

題目: “What have we learned from Archimedes’ Palimpsest?”

日時: 2017年4月3日 16:00~17:30

場所: 津田塾大学小平キャンパス 5号館 5206教室

<http://www.tsuda.ac.jp/about/campus-guide.html>

概要

The Archimedes Palimpsest is one of our major sources for Archimedes, the greatest scientist of antiquity. Incredibly, it was published for the first time only in 2011. This is because its reading required modern imaging technology. This talk will introduce Archimedes and his Palimpsest, and present key findings.
